

WIDE APPLICATIONS...

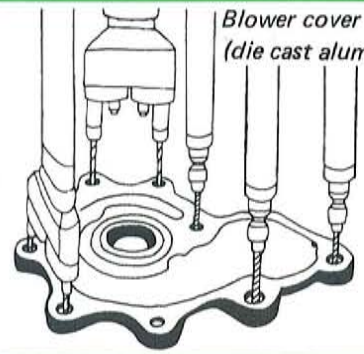

Spinning machine sprocket
(steel)

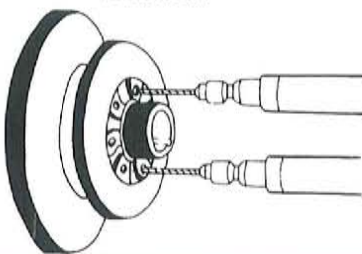

Motorcycle piston
(silicon aluminum)

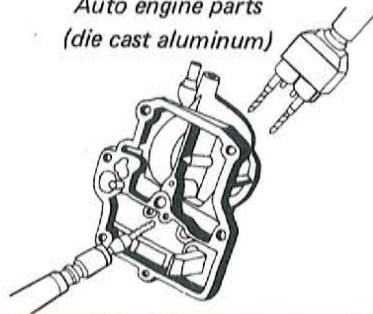

Blower cover
(die cast aluminum)

V pulley for construction machine
(cast iron)

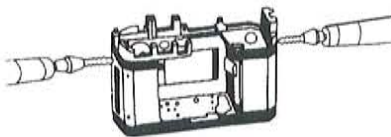

Auto engine parts
(die cast aluminum)

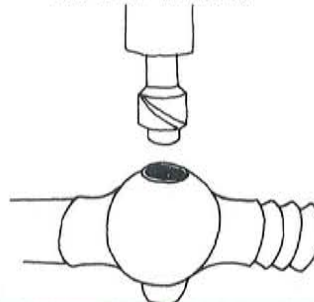

Agricultural machinery part (plough)
(steel)

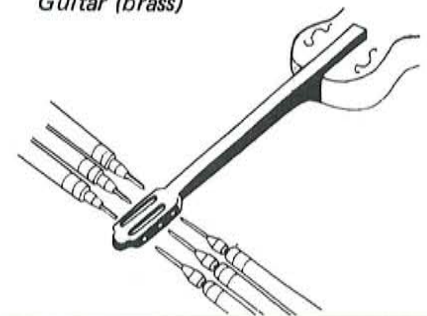

Camera body (die cast aluminum)

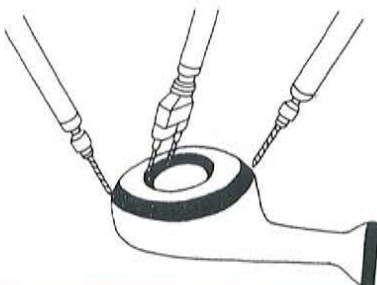

Gas cock (bronze)

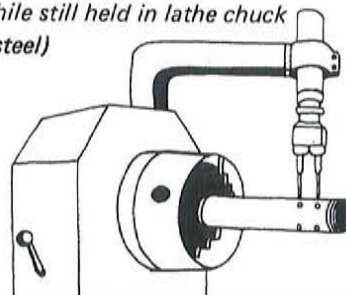

Guitar (brass)

Gas burner (cast iron)

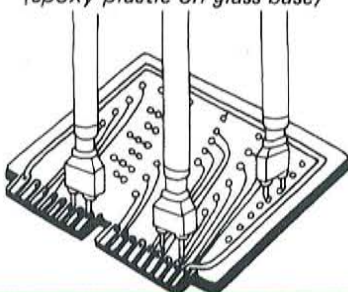

Hydraulic cylinder
while still held in lathe chuck
(steel)

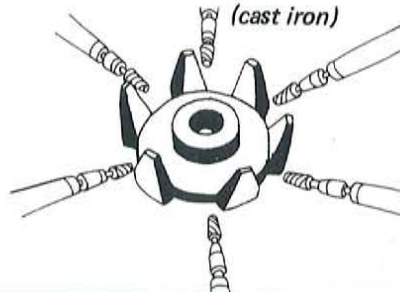

Handle for pencil sharpener
(die cast zinc)

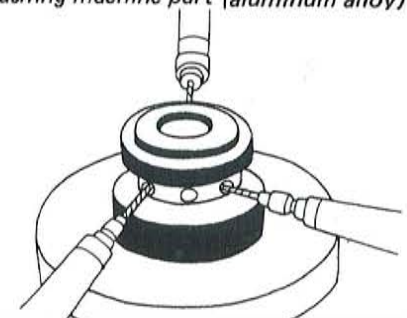

Circuit board
(epoxy plastic on glass base)

Auto parts chamfering and deburring
(cast iron)

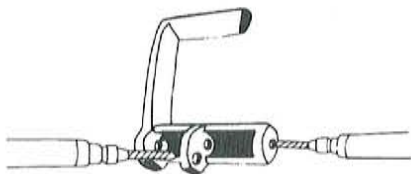

Washing machine part (aluminum alloy)

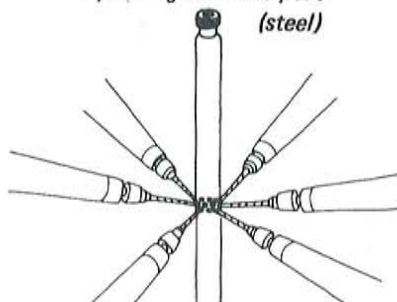

Selffeeders are filling numerous roles in industry.

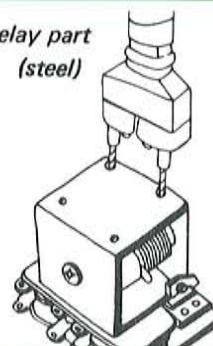

Typewriter part (die cast zinc)

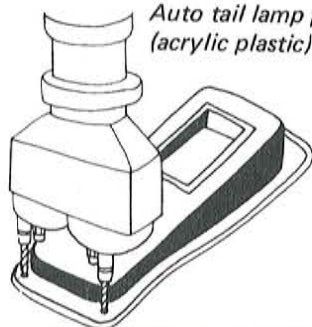

Spinning machine part (steel)

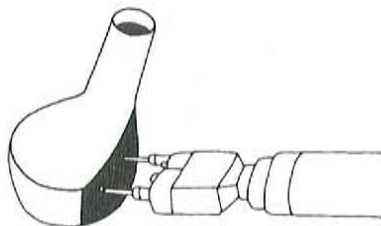

Electric relay part (steel)

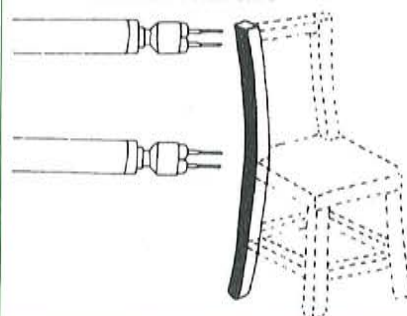

Auto tail lamp part (acrylic plastic)

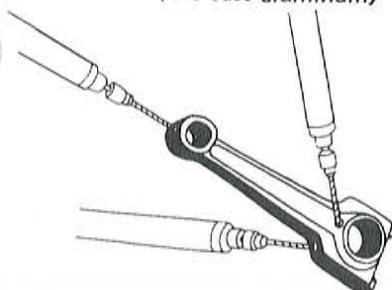

Golf club head (compressed wood)

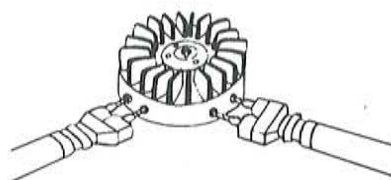

Wooden furniture

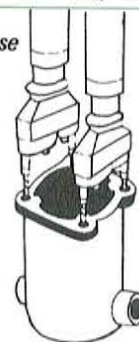

Conrod (die cast aluminum)

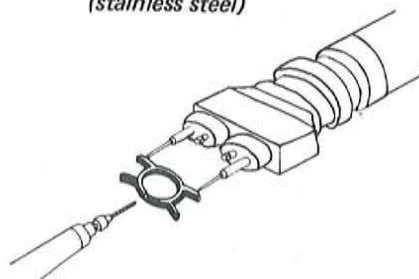

Auto part (die cast aluminum)

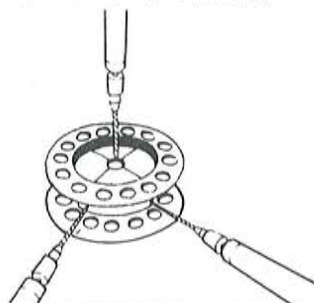

Midget motor case (die cast aluminum)

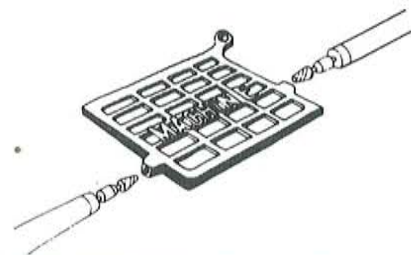

Wrist watch case (stainless steel)

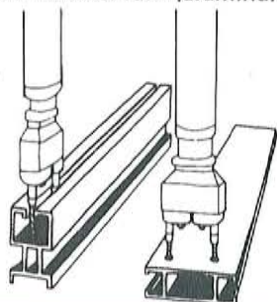

Tape reel (acrylic plastic)

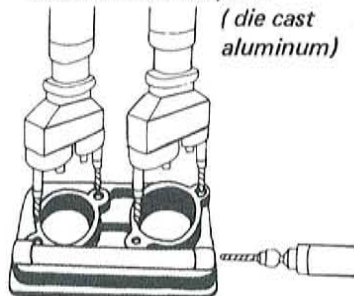

Sewing machine treadle (cast iron)

Aluminum window sash (aluminum alloy)

Business machine parts (die cast aluminum)

Hydraulic valve body (cast iron)
